# Pull Management Platform

*Do you need a LEAN Manufacturing solution to improve manufacturing performance by reducing inventory, improving flow, and reducing cycle times?*

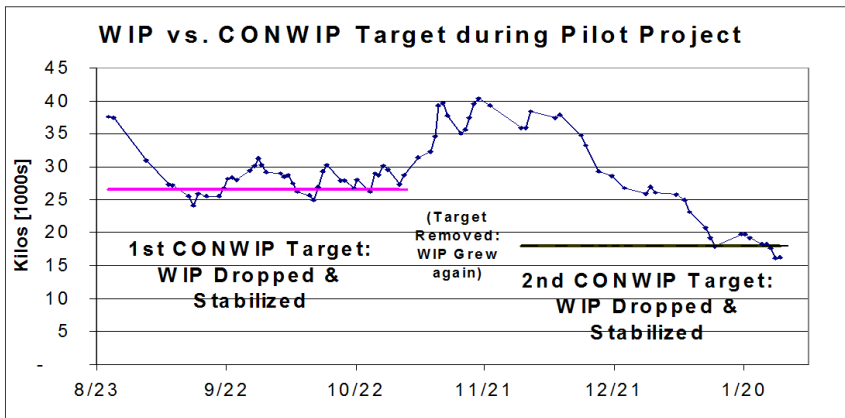

Pull Management Platform (PMP) provides an economical software platform to deploy and sustain demand driven pull manufacturing applications on the factory floor

- ◆ Supports classic Kanban, CONWIP, Drum-Buffer-Rope, and customized PULL methods.
- ◆ Automates data collection, system state update, tracking of system performance and distribution of team members.
- ◆ Provides easy to use interfaces via web browser.
- ◆ Available as a hosted solution (SaaS)
- ◆ Interfaces with existing IT systems: JD Edwards, LIMS, Documentum, SAP and others...

## KEY BENEFITS

- |  |  |
|--|--|
| <ul style="list-style-type: none"> <li>◆ Defines Flow</li> <li>◆ Define Pull Policy</li> <li>◆ Electronic Inbox of pending orders awaiting authorization and release.</li> <li>◆ Reporting to track performance</li> <li>◆ Hosted system eliminates large capital expenditure</li> </ul> | <ul style="list-style-type: none"> <li>◆ <b>Easy upgrade for manual kanban users</b></li> <li>◆ Frees up millions of dollars in working capital</li> <li>◆ Allows you to dial in inventory levels</li> <li>◆ Demand driven Pull replaces inaccurate forecast driven push</li> <li>◆ Ensures inventory dollars are invested right</li> <li>◆ Sustains benefits</li> <li>◆ Scales easily across multiple sites.</li> </ul> |
